

## **Dipper Research Partners**

**Venture capital is inaccessible and  
homogenous.**

**80%** of today's investment partners  
at VCs are **white**.\*

\*Per the National Venture Capital Association

Only **21%** of investing professional positions are held by women.\*

\*Per the National Venture Capital Association

## **We are not doing enough.**

- Minority investors lack equal access to job opportunities within VC.
- The current talent recruitment pipeline only benefits privilege, networks, and sources of capital.

## **Our Solution**

Dipper Research Partners brings diverse, aspiring VCs together to co-produce an investment thesis every quarter under the guidance of VCs and investing professionals.

**We are diversifying VC's talent pipeline by empowering investors early and equipping them efficiently.**

## Why am I reaching out today?

I am looking for VCs and investing professionals who would be willing to commit to **4-5 30 minute meetings** over the course of **12 weeks**. All we need is a little bit of your time.

I am also looking for a VC willing to commit to **1 30-45 minute session** to overview thesis creation at a high level.

## Who am I?

2x entrepreneur

Head of Growth at Dorm  
Room Fund

Venture Fellow at Ripple  
Ventures

**Together, we can help unlock VC for a more diverse generation of investors.**

**Thank you for your consideration!**
